PRODUCT DESCRIPTION About THE KICKSTARTER GAME: Behold the largest roleplaying game on the planet! Your custom character will have the ability to travel the Earth as they make their way to the center of the world! You'll visit many familiar (and exotic) locales! But beware! Don't get lost! The world is divided into eight continents, each with its own importance. You'll make your way through all of them in a very short period of time. But beware! Don't get lost! The world is divided into eight continents, each with its own importance. You'll make your way through all of them in a very short period of time. But beware! Don't get lost!

THE RULES: The North Pole is your starting location! As the world's extreme northern boundary, it's sometimes referred to as "the tip of the Earth." Travel the world by visiting your specially-equipped base in the North Pole, or by leaving your base and making your way to the "South Pole" and other locations. You won't actually start in the South Pole, though. When the game begins, the entire planet's continental divider is your southern edge. You can explore the world by visiting areas to the east, west, south, and north of your base. Each area contains a number of locations. You'll have to explore the world in order to get to all of the locations within that area. Follow the dotted line to your next location. When you've visited an area's last location, you'll be back to the beginning of that area. If you find the "South Pole," you'll be back at your base's location. If you find the North Pole, you'll be back at the beginning. And if you go further than the North Pole, you'll be lost. Be careful!
