See also CiscoThe deal is a three-year contract that pays him \$79 million with \$18 million guaranteed. The contract also contains \$13 million in signing bonus money. The contract will make him the highest paid center in the NFL. In a phone call with NFL Media, Schwartz said he “made a clear-cut judgment on Mike.” “I think it’s time for him to move on,” said Schwartz. “I think that’s one of the reasons I’m excited about bringing him in, is just because he’s going to have someone to guide him, some real experienced eyes, some coaching eyes and some mentoring eyes in terms of how to bring young guys in to have success.” “He’s a great teammate, he’s a great man. He certainly wouldn’t be the same person he is today without a lot of the coaches he’s had. And I think his family is his biggest supporter.” “I think the guy’s got a tremendous amount of respect from everybody in the building. And when you hear the things that people talk about him, it’s not all that he’s done. I think he’s done a tremendous job of putting himself in a position to be able to be as much successful as he has been.” The Browns had a big need at center, as Fox remains recovering from hernia surgery. Last season the Browns had their worst season in a decade. Schwartz pointed out that Fox played every single snap in 2016, logging 341 in the regular season and seven in the playoffs. Fox is the 3rd highest paid center in the NFL (with Jared Gaither and Spencer Pulley), and we’ll find out what top dollar looks like in the NFL. Here’s what Fox had to say in the conference call with NFL Media: “I’m excited for this opportunity. Coach Schauer, they got really smart this offseason. They got some great, great guys in that building. The main thing I want to focus on is the game. I think that if we spend as much time focusing on how we’re going to approach a game as we do in thinking about what we’re going to say, I think we’re

. 4 star review (89) 8. 5. 3. 4. 5. 4. 5. 4. 5. 4. 4. 3. 4. 4. 5...Q: Probability of repeated outcomes In the past 5 days, a tennis player (John) has won 2 matches and lost 4 matches. a) What is the probability that John has won the first two matches, the third match and lost in the last two matches. I've found  $P(\text{he has lost first two and won the last two}) = \frac{1}{7}$  I am not sure how to find  $P(\text{he has won first two and lost last two})$ . For example:  $A, B, C, D$  is the sequence of matches won/lost by John in the past 5 days. How do I calculate  $P(A, B, C, D) = P(A \cap B \cap C \cap D)$ ? A: The following is a friend of mine that helped me with the problem. The tennis player's sequence could be described in multiple ways. A common way of describing the outcome of the sequence is as follows:  $A$ : John won the first and third match and lost the second and fourth match;  $B$ : John won the first and second match and lost the third and fourth match;  $C$ : John won the first two matches and lost the last two matches; and  $D$ : John won the first three matches and lost the last two matches. The probability that John has won the first and third match and lost the second and fourth match is  $P(A)$ . The probability that John has won the first two matches and lost the last two matches is  $P(C)$ . And the probability that John has won the first three matches and lost the last two matches is  $P(D)$ . The probability that John has won the first two matches and lost the

---

last two matches is  $P(B)-P(A)$  as  $P(A)=P(B)$ . Hence, we have  $P(A)=\frac{1}{7}$  and  $P(B)=\frac{1}{7}$ , and  $P(C)=P(D)=\frac{2}{7}$ .
